HVAC Duct Systems

Professional HVAC Ductwork Solutions:

Afrin Riya Trading and Contracting W.L.L. specializes in the fabrication, installation, testing, and commissioning of HVAC duct systems for commercial, residential, industrial, and infrastructure projects.

HVAC duct systems are the backbone of air distribution, ensuring that conditioned air is delivered efficiently and comfortably throughout a building.

Types of HVAC Duct Systems

Supply Air Duct System

- Delivers conditioned air from AHUs, FCUs, or package units to occupied spaces.
- Ensures uniform temperature distribution.
- Improves occupant comfort and energy efficiency.

Return Air Duct System:

- Returns air from conditioned spaces back to the HVAC equipment.
- Supports proper air circulation and pressure balancing.
- Reduces energy consumption by recirculating conditioned air.

Fresh Air Ventilation System:

- Supplies fresh outdoor air to indoor spaces.
- Improves indoor air quality.
- Meets ventilation requirements for offices, malls, hospitals, and residential buildings.

Exhaust & Smoke Extraction System:

- Removes smoke, heat, odors, and contaminants.
- Essential for kitchens, basements, parking garages, and industrial facilities.
- Supports life-safety and fire protection requirements.
